

# Kielhofner's Model of Human Occupation

6th Edition

By **Renée Taylor, Patricia Bowyer, and Gail Fisher**

## Description

Updated throughout with the latest research, **Kielhofner's Model of Human Occupation**, 6th Edition, is the definitive resource on the theory and application of the most widely used model in occupational therapy today. A client-centered approach explores what motivates each individual, how they select occupations and establish everyday routines, and how environment influences occupational behavior. This revised 6th Edition reflects the current framework and incorporates the most up-to-date MOHO theory, research, and application practices to give users complete preparation for today's client care challenges.

## Features

- **NEW!** Enhanced focus on geriatrics and pediatrics equips students with specific strategies for populations and conditions commonly managed through MOHO.
- **NEW!** Full-color presentation clarifies key insights and keeps content engaging. Authoritative coverage empowers students with proven, practical guidance on the complete spectrum of MOHO theory and application.
