Anatomy, Physiology & Pathophysiology

Memmler's The Human Body in Health and Disease, 13th Edition

Barbara J. Cohen and Kerry Hull

Innovative in its pedagogy and approach, **Memmler's The Human Body in Health and Disease** has helped hundreds of thousands of allied health students (including those with little or no background in science and/or weak language skills) to master anatomy and physiology. From its pioneering use of phonetic pronunciations to its pedagogically effective skin-to-bone transparencies of the human body, to this edition's personalised chapter-by-chapter quizzes; this proven book continues to set the standard for the one-semester course.

Essentials of Pathophysiology: Concepts of Altered Health States, 4th Edition

Sheila Grossman and Carol M. Porth

Clear, readable, and student-friendly, **Essentials of Pathophysiology: Concepts of Altered Health States**, delivers "need to know" disease content. Approaching the topic as an exploration of pathophysiology, the book relates normal body functioning to the physiologic changes that occur as a result of disease and provides concise yet complete coverage of how the body works. The 4th Edition builds on the book's extremely successful art program and the "Understanding" feature and incorporates summary concept boxes after each section. In addition, an expanded, robust, and flexible suite of supplements, including a Study Guide, over 40 advanced 3-D narrated animations, prepU, and Lippincott's CoursePoint, provide students with all the tools they need to succeed.

Community As Partner, 8th Edition

Elizabeth T. Anderson and Judith McFarlane

Community As Partner: Theory and Practice in Nursing, 8th Edition offers a foundational overview of the concepts of epidemiology, environment, culture, ethics, empowerment, health policy, informatics, bioterrorism, and emerging infectious diseases as they relate to community health. Authors and theorists Dr. Anderson and Dr. McFarlane of the Community As Partner Model arm students with the “how to” knowledge they need to apply the nursing process to an entire community, and take readers through the entire nursing process with a real-life community as an example! Anderson offers a handbook with practical skills that ACHNE has outlined as essential for generalist nurses, including how to do a community assessment, how to analyze data, how to form a community nursing diagnosis, as well as how to plan, implement, and evaluate a community health program. Community As Partner analyzes the relationship between globalization and health, and inspires students to contribute to the reduction of global health challenges and promoting health for all, including marginalized populations and health promotion in school communities, rural communities, and faith communities.

In this edition, instructors will receive PowerPoints enhanced with lecture notes and iclicker questions. These PowerPoints will be developed to serve a dual purpose. You can choose to share the decks with your students to use as self-paced Study Notes and knowledge check multiple choice questions. Our NCLEX style test bank has been revised and enhanced with more questions at the application level and higher.
